DIARY NOTES - 8 August

25X1A9a 1. Had several discussions with ~~Shef~~ Edwards about a proposed trip for [redacted]
the Safety Officer, to Europe. On [redacted] recommendation I have agreed
25X1A9a to let [redacted] go. However, I have told Shef I would like to have a briefing on what 25X1A
25X1A9a [redacted] proposes to do and further that I see no excuse for his having been omitted
from the six months projected travel request.

25X1A9a 2. Shef advised me that [redacted] had gotten into some trouble recently
and probably would lose his driver's license for about sixty days.

25X1A9a [redacted]

25X9A2 4. Discussed with Jim again the problems confronting us in the printing and
reproduction business. Gave him permission to enter on duty in the Administration
Building Printing Plant not to exceed a total of [redacted] people. I did not change his ceiling, H
however, pending the outcome of Management's current study of the over-all problem.
I also agreed to go see the Public Printer as soon as possible to see if we can borrow
some people from him after the Congress adjourns.

25X1A9a 5. Attended a "collection" briefing in the Office of Communications. Dick 25X1A9a
[redacted] and General Cabell were also there and [redacted] put on a rather
impressive demonstration of what they have done and are doing in this field. H
25X1A9a [redacted] unfortunately was not there and it is important that he have this briefing as
soon as it can be arranged in order that he will have a better understanding of Com-
munications' capabilities in this field.

25X1A9a 6. [redacted], who is going to [redacted] to be [redacted] secretary, 25X1A9a
25X1A6a was in to see me. She is a Christian Scientist and wants to be excused from taking
a polio shot since, according to Barbara, this is not required by the Department of
State or other Government agencies. I told her that I would talk to Dr. Tietjen about
it and leave word for her.

25X1A 7. [redacted] was in to ~~xxx~~ say goodbye. He is departing for 18 months to
go to school at UCLA. He's going to spend this entire time studying electronic data
processing and other similar equipment. (The thought occurred to me that when he
returns he would be exceptionally well suited for our Management Staff.)
